On behalf of the Frances Clark Center for Keyboard Pedagogy, we wish you a warm welcome to Chicago, and to the 2015 National Conference on Keyboard Pedagogy!

The Frances Clark Center has been hard at work for the past two years to bring you a stellar slate of nationally and internationally recognized presenters and performers who will share ideas, insights, and inspiration on all facets of the music teaching profession.

Included in the many special events planned for the next few days are seven pre-conference seminars including technology, creativity, and teaching students with special needs. New this year are special lab sessions where attendees may interact with presenters one-to-one. PEDxv will include inspiring talks on music in action in our communities, and a special banquet will be held in honor of Ingrid Clarfield Jacobsen and Dennis Alexander and their many and invaluable contributions to the music teaching profession.

But, this conference is never complete without you! It is your experience and knowledge that bring us full-circle in our mission to support music study. Teachers and music lovers from around the USA and the world will join you in a celebration of your dedication, and the unique and invaluable service you provide in the lives of students, families and friends, neighbors, and communities.

We at the Frances Clark Center for Keyboard Pedagogy are inspired by you, the teacher, and know that you in turn will be inspired by the sharing of music making and teaching that will be present in abundance throughout the next few days.

Thank you for joining us, and for continuing to inspire us with the work you do each and every day.

**Keynote Address: Beyond the Keyboard**
Edwin E. Gordon

**Thursday, July 30, 9:20-10:20 AM**

Edwin E. Gordon and his work have been portrayed nationally on the NBC Today Show, in the *New York Times*, and in *USA Today*. He is widely known as a researcher, teacher, author, editor, and lecturer. Through extensive research, Dr. Gordon has made major contributions in the study of music aptitudes, audiation, music learning theory, tonal and rhythm patterns, and music development in infants and very young children. He is the author of six highly regarded music aptitude tests, numerous books, articles, research monographs, and is founder of the Gordon Institute for Music Learning (GIML).

“Readiness to learn to play piano is a significant factor contributing to success. Beginning students learn as much away from the keyboard as they do when using the keyboard.” – E. Gordon. In his keynote address Dr. Gordon will present preparatory concepts and skills for students in sequential order from listening to reading music notation.

**Conference Artist Solo Recital**
Sean Chen

**Friday, July 31, 8:30 PM**

Pianist Sean Chen is being hailed as a rising star with a “million-volt smile” and a “formidable set of fingers” (*Dallas Morning News*). In 2013 Chen won the American Pianists Association’s DeHaan Classical Fellowship, one of the most lucrative and significant prizes available to an American pianist. He also won Third Prize at the 14th Van Cliburn International Piano Competition, becoming the first American to reach the finals since 1997. The 26-year-old American pianist has appeared as soloist with the Indianapolis Symphony Orchestra, Fort Worth Symphony Orchestra, Indianapolis Chamber Orchestra, Corpus Christi, New West, Phoenix, and San Diego symphony orchestras, and the Suwon City Philharmonic in South Korea.

Chen received his Artist Diploma at the Yale School of Music in 2014 as a George W. Miles Fellowship recipient, and a student of Hung-Kuan Chen and Tema Blackstone. His former teachers include Jerome Lowenthal, Matti Raekallio, and Edward Francis. He has been featured in a nationally syndicated radio series that chronicled the finals week of the APA’s competition, as well as on From the Top, American Public Media’s Performance Today, WQXR (New York), WFMT (Chicago), WGBH (Boston), and WFYI (Indianapolis).
A Conversation with Jane Chu

Jane Chu

Friday, July 31, 10:00 AM

Jane Chu was confirmed by the U.S. Senate in June 2014 as the 11th chairman of the National Endowment for the Arts. Since 2006, Chu served as the president and CEO of the Kauffman Center for the Performing Arts in Kansas City, Missouri, overseeing a $413-million campaign to build the center. As the performance home of the Kansas City Ballet, Kansas City Symphony, and Lyric Opera of Kansas City, the Kauffman Center has hosted more than one million people from all 50 states and countries throughout the world since its opening in September 2011.

Chu was born in Shawnee, Oklahoma, but was raised in Arkadelphia, Arkansas, the daughter of Chinese immigrants. She studied music growing up, eventually receiving bachelor's degrees in piano performance and music education from Ouachita Baptist University and master's degrees in music and piano pedagogy from Southern Methodist University. Additionally, Chu holds a master's degree in business administration from Rockhurst University and a Ph.D. in philanthropic studies from Indiana University, as well as an honorary doctorate in music from the University of Missouri-Kansas City Conservatory of Music and Dance.

Solo Recital and Masterclass

John Perry

Recital, Thursday, July 30, 12:15 PM

Masterclass, Thursday, July 30, 3:15 PM

John Perry, distinguished artist and teacher, earned his bachelor's and master's degrees at the Eastman School of Music where he was a student of Cecile Genhart. Recipient of a Fulbright Scholarship, he continued studies in Europe for four years where he worked with Wladyslaw Kedra at the Akademie für Musik in Vienna, and Carlo Zecchi at the Santa Cecilia Academy of Music in Rome. He is professor at the Glenn Gould School of the Royal Conservatory of Music in Toronto, professor of piano at California State University-Northridge, visiting artist faculty at Boston University, Professor Emeritus of the USC Thornton School of Music, and is artistic director at Southern California Music Institute, which he founded. Perry has won many awards, including the highest prizes in both the Busoni and Viotti international piano competitions in Italy and special honors at the Marguerite Long International Competition in Paris. He has performed throughout North America and Europe with some of the finest musicians in the world. He counts four students as winners of the MTNA National Student Competitions. His recordings are available on the Telefunken, Musical Heritage Society, CBC, ACA and Fox labels.
Guy Duckworth

Dr. Guy Duckworth, a pioneer of group piano pedagogy, died January 27, 2015, at the age of 91. He created and directed the unique graduate programs at the University of Colorado at Boulder in Piano Performance Literature and Pedagogy: Process of Group Environments. Guy’s vision came to fruition at Colorado where students’ musical growth and personal growth developed hand in hand. He stressed the wedding of affective and cognitive understanding of the music. Following is an excerpt from an article in Clavier Companion (July/August 2015) about his legacy authored by Sylvia Coats.

Guy taught us about the gestalt, that the whole is more than the sum of its parts. A beautiful performance is not just the result of a correct reading of the score, but an understanding of the meaning of the music. Guy expected us to make the music come alive and to be emotionally invested in our playing.

Guy considered each lesson “unknown territory, an open slate,” but with the expectation that each student could have an aha moment of discovery. He worked hard to make it a possibility for each individual in the group. Because of the supportive, musical environment that Guy facilitated, students often described aha moments when their playing felt effortless with complete involvement in the music.

His curriculum was organized by eleven musical, keyboard, and aesthetic concepts, whereby patterns could be observed regarding technical, musical, and expressive content and principles could be drawn about the music that are transferable to other repertoire.

Guy’s life was one of growth. The amalgamation of his experience growing up in Burbank, CA, serving in World War II, touring as a performing artist, studying at Teacher’s College, Columbia University, teaching music at Tranquility Union High School, CA, the University of Minnesota, and Northwestern University led him to create a graduate program at Colorado University unlike any seen before or after his tenure there, documented in a media presentation titled, The Person First and Together (1984). Tribute by Sylvia Coats.
Louise Goss
The professional contributions of eminent American piano pedagogue Louise Goss (1926-2014) are countless. Her tireless efforts, along with those of Frances Clark, include the establishment of arguably the first piano pedagogy program in the United States at Kalamazoo College in Michigan, the creation of the New School for Music Study, the development of *The Music Tree* and the *Frances Clark Library for Piano Study*, the presentation of countless workshops, the creation of the Frances Clark Center for Keyboard Pedagogy, the proliferation of the National Conference for Piano Pedagogy and its continuation as the National Conference for Keyboard Pedagogy, the publication of *Keyboard Companion* and later *Clavier Companion* magazines, and the editorship of books and articles on piano pedagogy.

Goss's work touched the lives of innumerable piano students, piano pedagogy interns, and piano teachers. "I would say that my mission in life… has been to do everything [I] can to improve piano teaching methods and materials, so that every child who takes piano lessons can have a wonderful, joyful, growthful experience," stated Goss. But it was not in Goss's nature to seek public recognition for her work, as Marvin Blickenstaff corroborates: "Louise [was] not one to covet the spotlight and willingly relinquished that position."

When asked about her hopes and wishes for the future of the piano pedagogy profession, Goss stated: "My hope for the future is that a much larger group of people will come to see what piano pedagogy in its fullness means; how exciting it is, how important it is, and that lots of people will get on the bandwagon and make it become what it can become… [I hope]everybody [will] begin to grasp this notion that it's the child first, music second, and only third is the piano." Tribute by Judith Jain.

My hope for the future is that a much larger group of people will come to see what piano pedagogy in its fullness means.
About the Frances Clark Center

Vision
The Frances Clark Center for Keyboard Pedagogy is a leading provider of resources for music education at the piano with an emphasis on teacher preparation, cooperation, innovation, and advocacy.

Mission
As a leading resource for music teachers worldwide, the Frances Clark Center for Keyboard Pedagogy aspires to:

1. Promote lifelong enjoyment of music-making by all persons regardless of age, gender, ethnicity, or socio-economic status.
2. Disseminate best practices in music teaching and music teacher education.
3. Explore innovative pedagogical practice that is inclusive all learners at all levels.
4. Foster leading-edge research in music teaching and learning.

Philosophy
Frances Clark believed passionately in the transformative power of music making in the life of every person, regardless of age or ability, and that the quality of a person’s musical life was directly attributable to the quality of teaching they experienced - particularly in the early levels of study. A driving force behind Frances Clark’s philosophy was the education and training of teachers.

Projects
In support of this mission, the Frances Clark Center for Keyboard Pedagogy operates the following ongoing projects:

The National Conference on Keyboard Pedagogy
The official professional meeting of the Frances Clark Center for Keyboard Pedagogy is a biennial meeting of keyboard music educators, researchers, and industry leaders representing all fifty states and over twenty other nations. Celebrating 36 years of excellence and innovation in music education at the keyboard, the mission of the conference is provide education, inspiration, and resources to teachers who are dedicated to nurturing lifelong involvement in music-making from the earliest to the most advanced levels, enabling them to enhance the quality of music-making for all students. The conference offers specialized tracks on independent music teaching, creativity, wellness, technology, and other topics as well as the intensive PEDx program where professionals from around the world make short presentations on leading-edge initiatives in piano instruction and its impact of the profession. www.KeyboardPedagogy.org/nckp2015about

Clavier Companion
The official journal of the Frances Clark Center for Keyboard Pedagogy is the foremost publication providing leading-edge information on piano teaching, feature stories and information for piano enthusiasts, and special educational features for young students. Available in both print and online editions, Clavier Companion also has a dedicated website at www.ClavierCompanion.com

Publications
The Frances Clark Center continues to provide support to piano teachers through publication of NCKP proceedings and the Internet journal Piano Pedagogy Forum. In addition, the mission and goals of the Center are reflected in the publication of pedagogical treatises by Frances Clark, Richard Chronister, Elvina Truman Pearce, and in video productions highlighting the pedagogical legacy of Frances Clark. Available at www.Amazon.com.

The New School for Music Study
The official laboratory and teacher training school of the Frances Clark Center for Keyboard Pedagogy is a leading center in piano education and provides a variety of programs and classes for piano students of all ages and abilities in Central New Jersey. In addition to weekly lessons, group classes, and recital opportunities, The New School for Music Study is home to the Program for Excellence in Piano Study. The New School practices the Center’s philosophy daily by accepting all students for study, discovering and nurturing the innate music within each student, and providing rigorous training for its faculty members. The New School for Music Study has a dedicated website providing online instruction videos for piano teachers and hosts streaming webcasts of special lectures and teaching demonstrations throughout the year at www.nsmspiano.org.

The Frances Clark Center for Keyboard Pedagogy is a national leader in the field of piano pedagogy. In addition to sponsoring the biennial National Conference on Keyboard Pedagogy, our outreach efforts include Clavier Companion magazine, operation of The New School for Music Study founded Frances Clark and Louise Goss in 1960, publication of the Piano Pedagogy Forum internet research journal, and publication of various essential books in the field of music education including The Success Factor in Piano Teaching: Making Practice Perfect, the 2015 best-seller by Elvina Truman Pearce.

The Frances Clark Center is a 501c3 not-for-profit educational organization that takes pride in high-quality revenue-generating activities, fiscal responsibility, and the discipline of cost-saving initiatives wherever possible. However, our expenses remain significant, outpacing our ability to meet them without donated funds and limiting our capacity to fulfill our global potential. We need your help in supporting the Frances Clark Center and its initiatives as we seek to foster and support piano teaching at its best across the country and around the world.

Any gift that you choose to make in support of the Frances Clark Center is deeply appreciated as is your participation and attendance here at the National Conference on Keyboard Pedagogy 2015 and future conferences, your ongoing subscription to Clavier Companion, and your belief in the importance of our vision, mission, and goals. We know you have many high quality choices when it comes to charitable giving and we are honored when you choose to support the Frances Clark Center.

Visit our donation website at www.keyboardpedagogy.org for information on giving and for donation options. Or you may speak with any of our leaders in attendance at NCKP 2015. Under IRS guidelines, most gifts qualify as deductible charitable contributions. Most importantly, you can rest assured that all contributions all be used to further the work of the Frances Clark Center and help achieve our goal of making quality music education available to every piano student and quality teacher-training available to every keyboard music educator.

With sincerity and deep gratitude for your continuing generosity,

Scott Price

Pre-Conference Seminar 2: Students and Young Professionals

Community + Collaboration = Arts Advocacy

Grand Ballroom G

NCKP Committee on the Pedagogy Student:
Lesley McAllister, Chair, Michael Benson, Michelle Conda, Grace Choi, Kellie Cunningham, Scott Donald, Sara Ernst, Margaret Young

1:30—2:00 PM Keynote Address:
The Many Faces of Music
Marvin Blickenstaff
Grand Ballroom IJ

2:30—3:00 PM Clavinova Connection:
The Beginning of the RMM Movement
Clavinova Connection is a protocol developed by Yamaha in the early 2000s that launched the beginning of the current RMM (recreational music making) movement. Using peer reviewed research and evidence, Clavinova Connection has continued to develop and serve many more populations than was first thought possible. This session will cover these different populations, such as wounded warriors, special needs adults and children, as well as the senior market. Discussion will cover the protocol and parts that can be used by private teachers outside Clavinova Connection. In addition, time will be spent on where to find these emerging markets.
Lori Frazer

3:00—3:30 PM Musical Angels
Gustavo Tolosa will share how he started Musical Angels, Inc., a non-profit organization that brings piano lessons to hospitalized children in at-risk environments. Dr. Tolosa will describe teaching techniques and present several success stories. He will also present the steps necessary to start a Musical Angels in any city and how to make it a successful community outreach program.
Gustavo Tolosa

3:30—4:15 PM Panel Discussion by Young Professionals: Reaching Out to the Underprivileged and Underserved in the Community
Theresa Chardos Camilli, Ruby Chou, Abigail Huston, Holly Kessis, Erin Peyer, Chloé Reis, Malissa Tong, Jennifer West, Sarah Welch

4:30—5:00 PM MusicLink Makes a Difference – One Student at a Time
MusicLink begins with the simple idea of linking eager students in financial need with caring professional teachers who agree to teach these students for whatever they can pay for as long as they want to learn. The MusicLink Foundation networks to create these links and assists with music, instruments, camp scholarships, and teacher reimbursement for event fees, music, and materials.
Joanne Haroutounian, Peggy Newhall

5:00—6:00 PM Small Group Discussions

6:00—7:00 PM Dinner Break

7:00—8:00 PM Arts Advocacy as Viewed through the Lens of Social Justice
Research and studies show that arts education helps improve outcomes for all students, but particularly impacts those from low socio-economic backgrounds. Arts advocacy is especially important from a social justice perspective since these new reports indicate that the arts opportunity gap is widest for children in high-poverty schools.
Lucia Unrau

“Every child can know the joy of making music at the piano.”

Pre-Conference Seminar 3: Independent Music Teachers

Grand Ballroom IJ
NCKP Committee on Independent Music Teachers: Arlene Steffen, Chair, Immanuela Gruenberg, David Husser, Gail Lew, Elissa Milne, Jason Sifford.

1:30—2:00 PM Keynote Address: The Many Faces of Music
Marvin Blickenstaff
Grand Ballroom IJ

2:15—2:50 What Are We Really Teaching?
Technique, reading, expression, theory, ear-training, sight-reading, improvisation, history, etc. Most of us believe these things and more define “musicianship,” but a fractured approach to these subjects seems to leave us with little time to focus on anything. What is our ultimate goal as teachers, and how can we teach musicianship without losing sight of the “Big Picture”? Pete Jutras

3:30—3:50 PM Puzzle Pieces: Efficient and Effective Lesson Planning
This session will take the long view at creating and executing lesson plans. Participants will learn ways to cover multiple areas of musicianship, technique, repertoire and theory to help students develop their skills comprehensively.
Arlene Steffen

4:00—4:50 PM Five Guiding Principles for the Technical Development of the Advancing Pianist
Five progressive principles that are common among many of the greatest pianists include the Principle of Touch (the physical mechanics, hand position and posture), Sound (creating a beautiful tone, articulation and dynamic contrast), Pulse (rhythm, tempo and phrasing), Facility (fluidity, speed and navigating the keyboard) and Balance (analysis, voicing and control). Video clips of musical examples will be incorporated to demonstrate points of discussion focusing on developing technique for the advancing pianist.
Richard Van Dyke

5:00—6:15 PM Repertoire Recipes
The repertoire we use in lessons contains a vast array of musical ingredients that can be combined in different ways to provide a potentially endless variety of learning experiences. This session explores how you can use your favorite teaching pieces as a basis for creative engagement, enhancing performance fluency, and developing keyboard musicianship.
Elissa Milne

6:15—7:30 PM Dinner Break

7:30—9:00 PM Manipulation Stations
Manipulatives have long been used in mathematics to make abstract concepts come alive. Objects are used to engage students in developmentally appropriate activities that put them in charge of their own learning. In this session, teachers will learn how to use simple objects found around the house to help students grasp the often difficult concepts of pitch, rhythm, technique, and listening skills in fun and engaging ways.

2:15—2:25 PM NCKP: 25 Years of Pioneering History in Pianists’ Wellness
NCPP/NCKP was a pioneer amongst music associations in the field of musicians’ health, and the first to establish a standing wellness committee. Its publication of the first Annotated Bibliography on Musician Wellness became the foundation for MTNA’s current online database on wellness sources. These introductory remarks will highlight this association’s wellness initiatives from 1989 to the present.
Gail Berenson, Linda Cockey

2:30—3:25 PM Music and the Brain 101
Neuroscientists have learned a great deal about how a musician’s brain functions, and knowing a few brain basics can help us avoid injury and perform with greater confidence. During this session, we will look at what is going on in our brains when we practice, when we learn and memorize music, and when we make music together.
Lois Svard

3:30—4:25 PM Small Hands on a Big Keyboard: Non-Intuitive Adaptive Strategies
Performing standard piano repertoire on the conventional-sized keyboard poses special challenges for small-handed pianists. This session will explore a number of adaptive strategies for small-handed pianists, including the tried-and-true as well as some that may surprise.
Lora Deahl, Brenda Wristen

4:30—5:25 PM Pathways of Music and Emotion: Mental Health Principles for Teachers
Psychological health is an important and often overlooked aspect of musician health and wellness, even though performance can
invite a host of serious emotional challenges. This session will explore the intersection of music and mind, and offer practical advice for instructors.
Vanessa Cornett, Julie Jaffee Nagel

7:00—7:55 PM Ergonomically-Scaled Piano Keyboards and the Small-Handed Pianist
With the unfortunate loss of performing ability to small hand-induced injuries/problems, is there a market for smaller keyboards? This session will offer the latest research and demonstrations to help pianists avoid injury, develop proper technique, increase their repertoire choices, and reach their true potential.
Rhonda Boyle, Carol Leone

8:00—8:55 PM The Essentials of Healthy Biomechanics for the Pianist
Piano playing is an art as well as an athletic activity. What should piano teachers know about the core principles of well-coordinated, injury-preventive piano technique? What do teachers need to experience and understand about efficient muscle use and optimal alignment? Explore the pedagogy of good biomechanics to minimize risk of injury and maximize students' artistry.

The High Note in Music Learning

Literacy in the language of music involves more than simply playing an instrument. **Music for Young Children** provides students with a strong foundation in music by integrating keyboard, creative movement, rhythm, singing, ear training, sight reading, music theory and composition. **MYC** is the only early childhood method that integrates and actively uses conservatory repertoire and theory to prepare our graduates for their first practical and theory exams. **MYC** is ideal for teachers who meet specific piano-performance and music-theory qualifications and are energetic, enthusiastic and passionate about music. Our teachers receive special program training and are assessed to ensure consistently high music education standards. Teachers are mentored through a network of field coordinators who provide ongoing support and guidance.

Take a look at **Music for Young Children**, the music-learning system of choice for more than 24,000 students throughout North America, Asia and New Zealand.

The Role of Rote Teaching in the Development of Reading, Artistry, and Technique
When rote teaching is paired with a strong reading program, beginners progress at a faster rate than is possible when they read notation exclusively. Since students are playing music that is far more difficult than they can read, they are free to focus on the technical and artistic elements of a piece. Learning by rote sparks student's imagination and increases their understanding that music communicates meaningful ideas. Learn why students thrive with this approach.

Research on the Effects of Instrumental Music Study on the Brain
How instrumental music study effects the brain is not solely a right-brain, a left-brain, or a cortex issue; it is a whole-brain issue. Research studies suggest multifarious benefits of instrumental music study in brain function, anatomy, and cognition. Researchers comparing the brains of musicians to non-musicians have shown positive differences that make formal instrumental music study remarkably advantageous at almost any age.

A Comparison of Three Modalities of Communication and Effectiveness of At-home Practice Assignments in Pre-college Students
The purpose of this study was to compare three different modalities of communication of at-home practice and how effective they are in the acquisition of new repertoire. The three modes of communication differed in terms of how the assigned practice strategy was delivered to the student. The modalities used to communicate the practice strategy were a written format, aural format, and video format.

**Come One, Come All: Coaching Beyond the Keyboard**
Coaching young chamber music groups is a joyous and energizing experience, yet can be equally daunting – how can we, as teachers, make this as constructive an experience for all the instrumentalists involved, without just focusing on the pianist? This interactive workshop, presented in a master class clinic format, will provide strategies when working with chamber music groups to maximize their ensemble performance, from both musical and interpersonal perspectives. *Teaching Piano in the Digital Age*
Teaching piano has always been about the student, the music and the instrument. We tend to forget that there is another key player here: the medium through which the music is relayed. For centuries we have been using paper sheet music and pencils, but it is 2015 now, and there are many alternatives to paper—some of which offer substantial additive value. The presentation will list and explain the most significant technological tools that are currently at the disposal of piano teachers.

OpporTUNEity: Engaging a Challenged Population and Bridging Racial Gaps through Music
OpporTUNEity is a highly successful co-curricular service-learning project that provides children with special needs and at-risk youth in Pulaski, TN with piano lessons and mentoring from undergraduate students. With an 80% poverty rate, Pulaski continues to work towards shedding its history as the birthplace of the KKK and heal the longstanding impact of racial segregation. This program works to change all of above through the emphasis on inclusion, diversity, and community collaboration.

Arts Entrepreneurship and Teaching Through Games
Ten years ago, few schools taught arts entrepreneurship. Today there are 96 American colleges and universities addressing the topic. Most artists do not gravitate towards traditional business classes. So, how should artists be taught entrepreneurial skills? When educators appeal to artists’ sensibilities, by teaching through play, they increase the likelihood of artists embracing entrepreneurship, and thus increase the chances of more artists making a living from their creativity and artistry.

N.I.C.H.E.
Our field is in the midst of a major evolution. Do you struggle with bridging the gap between what’s considered “traditional” and balancing this with the desires and goals of today’s modern students? Have you found your niche? Do you consider yourself indispensable? Jennifer Eklund, owner of Piano Pronto Publishing, will discuss how she successfully built her publishing company in tandem with her 20-year teaching career and how her own brand-building experience can help you be more successful.

Music Transcends the Middle East Conflict – One Note at a Time
The session focuses on the profound impact that we as performing artists and teachers can have in a world that is starving for the gift of music. Our ‘vocation’ in the current global climate goes far beyond playing great music in great halls. We are called to take our talents into unique and even dangerous situations to create a platform for fostering peace and understanding between very diverse countries and cultures. The manner in which these historic events continue to resonate and diffuse the misperceptions of Middle Eastern cultures will be highlighted.

**Behind the Music: Finding a Common Theme in Creative Composition and Performance**
This session demonstrates an approach to piano instruction using creative activities beginning with a “skeleton” that consists of a descending melody harmonized by primary triads. Based on Heinrich Schenker’s theories of generative musical analysis, this approach helps students identify relationships between their own compositions and their repertoire. The result is students who perform with intelligence and greater musical understanding.

**In Praise of Ignorance: The Teacher as Student**
This presentation demonstrates ways in which musically active teachers can share successes and failures of practice and performance with our students. Instead of omniscient gurus, we serve our students best as learning partners and as celebrants of the process of learning, not just its end products. Posting unedited practice videos online and offering live observed practicing results in a recognition of real versus imagined results, and of the endlessly human experience of being a lifelong learner.

TEACHERS & STUDENTS:

An essential online video library

Instructional support to master effortless, whole-body piano technique

“Fred Karpoff is among those rare virtuosos who consciously understands what he is doing, and can impart his knowledge to others.”

– Seymour Bernstein

“Short concise segments, isolating technical movements with superb video – perfect for busy piano teachers.

– Donna Craig Piano Teacher, Martinez, CA

“I love being able to place my iPad on the piano and refer to the specific segments we are covering in a lesson.”

– Joan Lyons Piano Teacher, Camillus, NY

“…hearing you describe the techniques to pieces is empowering and supportive in a special way. It is so helpful to be informed of a technical system that allows my musical instincts to be expressed with ease. I love hearing and seeing what it does for my students.”

– Heather Waldrop Piano Teacher, Harlingen, TX
